

CCFSSE Survey (Faculty Survey)

This questionnaire was administered in 2010 and 2012.

- In 2012, over half of the GFC faculty respondents were **full-time** employees (60%) whose highest degree was a **master's degree** (69%).
- Most respondents (79%) said that they had taught the randomly selected course at least one time prior to the surveyed term.

Major Findings

- Only 16% of faculty respondents thought that students prepared two or more drafts of a paper often or very often; 54% of students respondents reported doing so. Faculty were asked to respond to the question in regards to their selected course; students were asked to respond for ALL their courses.
- Faculty were more likely to say that students came to class unprepared (35% versus 13% of students) or skipped class (15% versus 5% of students).
- * Eighty-nine percent of faculty said they gave students prompt feedback often or very often; only 64% of students said this was true.
- * When asked how much **memorizations** was emphasized in their classes, **72**% of **student** respondents said quite a bit or very much, **60**% of **faculty** said this.
- * Students and faculty had different opinions about how much GFC emphasized **encouraging students to spend time studying. Sixty-seven percent** of **faculty** said this was emphasized quite a bit or very much while **84%** of **students** said this.
- Faculty had different ideas about how students spent their time. Sixty-five percent of faculty thought students spent more than 20 hours a week working; only 40% of students said they did this. Sixty-five percent of faculty thought students spent more than 20 hours a week on dependent care; only 33% of students said they did this. On the other hand, only 5% of faculty thought students spent more than 20 hours preparing for class; in actuality 33% of students said they did this.
- * While 89% of faculty thought being unprepared academically was a likely or very likely reason for students to withdraw; only 18% of students thought this. Lack of preparation was ranked as the number one issue for faculty of the common issues (faculty actually ranked "personal issues" number one; however this wasn't an option for students); however for students it was ranked last. Students felt that a lack of finances was most likely to cause them to withdraw (faculty ranked lack of finances fifth this year after ranking it second in 2010).

Great Falls College CCFSSE Survey Institutional Research

- * When asked how they spent their time in a typical week, faculty respondents reported spending the most time teaching, preparing for class, grading papers, and giving feedback to students. Respondents reported giving the least amount of time to working with honors' projects, conducting service activities, supervising internships, and mentoring other faculty.
- The percentage of faculty who said that academic advising was included in their teaching role dropped from **54%** in 2010 to **46%** in 2012.

About this report: This report can be viewed in as little or as much detail as desired. Use the table of contents (TOC) to find question text and hyperlinks to each question. Multi-part questions have summary tabs where data for each part has been included, as well as an overall graph. For detailed discussion and graphs for each question part, follow the links on the summary tab to the item desired.

This report was produced by the Office of Institutional Research at Great Falls College. Please address any questions to Wendy Dove (wendy.dove@msugf.edu).

Noted Difference from year-to-year

Comments

Fewer faculty in 2012 said this would be an issue causing students to withdraw.

Comparison between Great Falls College and the entire 2012 CCFSSE cohort

All Responses - 2012

68%

62%

Summary:

Q5f

- * Responses from Great Falls College faculty respondents were compared to all CCFSSE respondents. Differences of more than 10 percentage points are highlighted in the table below.
- * A larger percentage of GFC faculty respondents were full-time; however fewer of them reported having at least a master's degree than the CCFSSE cohort.
- * GFC faculty were almost twice as likely to think that their students spent 11 or more hours preparing for class in a typical week.
- * GFC faculty were more likely to refer students to disability services and were also more likely to say they incorporated this service into their class.
- * GFC faculty were more likely to say that being academically unprepared, caring for dependents or personal issues might cause students to withdraw.
- * More GFC said that academic advising, clinical supervision, teaching a distance learning course, and service learning were a part of their teaching role.

Q5	During the current year, in which ways have you been involved in college orientation? (% saying not involved)	65%	51%	GFC faculty were less likely to have been involved.
Q6	In your work with students in college orientation, which of the following modalities have you employed? (% saying face-to-face)	95%	96%	•
Q7	During the current year, in which ways have you been involved in a student success course? (% saying not involved)	70%	62%	
Q8	In your work with students in a student success course, which of the following modalities have you employed? (% saying face-to-face)	92%	84%	
Q9	During the current year, in which ways have you been involved in an accelerated course? (% saying not involved)	74%	79%	
Q10	In your work with students in an accelerated course, which of the following modalities have you employed? (% saying face-to-face)	88%	100%	
Q11	At the beginning of the current term, which of the following methods did you use to administer an in-class assessment? (% saying yes)		•	
Q11a	A written assessment	40%	37%	
Q11b	An oral assessment	20%	13%	
Q11c	An online assessment	10%	11%	
Q11d	A computer-assisted assessment	10%	13%	
Q11e	None of these	36%	51%	Fewer GFC faculty administered an in-class assessment.
Q12	Which of the following is your most common action if a student is under-prepared? (% saying yes)			,
Q12a	I recommend tutoring or other academic support service.	46%	45%	
Q12b	I recommend student be placed in another course or level.	5%	3%	
Q12c	I adjust my course pedagogy.	35%	41%	
Q12d	I advise a student to drop the course.	11%	0%	No GFC faculty advised a student to drop.
Q13	What percentage of your students registered after the first class session? (% saying 10% or less)	94%	92%	с. с. ж
Q14	Do you have a course attendance policy that specifies the adverse impact on a students' grades for missing class? (% saying yes)	80%	76%	
Q15	How have you communicated the attendance policy to students? (% saying yes)		,,	
Q15a	I've orally explained the policy to my students.	88%	96%	
Q15b	I've included the policy on the course syllabus.	97%	98%	
Q15c	I've posted the policy on a course website, blog, etc.	47%	45%	
Q15d	I had students sign the syllabus or attendance policy as a contract.	23%	9%	Fewer GFC faculty had students sign a contract.
Q15e	I've sent the policy in an e-mail to my students.	14%	9%	Tonor Cr Cracany nad craacing eight a confiden
Q15f	I've sent the policy in a text message to my students.	1%	0%	
Q15g	I've posted the policy or sent t via social networking tools.	1%	0%	
Q16	What is the nature of the adverse impact on students' grades for missing class? (% saying yes)	.,,	<u> </u>	
Q16a	Attendance is tied to a participation score or grade.	63%	66%	
Q16b	I deduct a given number of points from the final grade for each missed class.	13%	23%	More GFC faculty did this.
Q16c	I deduct a given number of points after a preset number of classes have been missed.	18%	6%	Fewer GFC faculty did this.
Q17	How often during your selected course section do you assign group learning experiences that require students to: (% saying often or very often)	1070	0,70	
Q17a	Interact with a specific group of peers during class to complete group assignments or projects?	43%	49%	
Q17b	Interact with a specific group of peers outside of the classroom to complete group assignments or projects?	11%	18%	
Q17c	Study together outside of class?	9%	10%	
Q17d	Study together during class?	26%	26%	
Q17e	Collaborate using technology-mediated methods?	14%	15%	
Q18	Do you require students to be involved in an internship or other hands-on learning experience beyond the classroom?	13%	20%	
Q19	Do you require students to be involved in service learning?	7%	13%	
Q20	Is supplemental instruction available to students?	44%	48%	
Q21	Do you require students to be involved in supplemental instruction? (% saying yes depending on academic performance)	10%	7%	
Q22	Which of the following modalities have you employed for provided supplemental instruction? (% saying yes)			
Q22a	Face-to-face interaction	95%	97%	
Q22b	Online interaction	32%	38%	
Q22c	Social networking technologies	4%	0%	
Q23	Which of the following statements best describe actions you've taken in regards to struggling students? (% saying yes)		,,	
Q23a	I've communicated with students directly during class.	63%	62%	
Q23b	I've contacted students directly outside of class.	67%	87%	GFC faculty were more likely to do this.
Q23c	I've notified someone else in the college who contacts students as part of an early academic warning system.	28%	40%	GFC faculty were more likely to do this.
Q23d	I've contact someone else in the college who contact students as part of an informal intervention process.	11%	25%	GFC faculty were more likely to do this.
Q23e	I have referred students to college tutoring services.	52%	65%	GFC faculty were more likely to do this.
Q23f	I have required that students participate in college tutoring services.	5%	3%	y

Questions

Question 4 Comparison: Faculty: How often do students in your selected course section do the following?

Students: In your experiences at this college during the current school year, about how often have you done each of the following?

Summary

On a number of the activities listed, there were significant differences between the responses of faculty and their students (those activities that had significant differences are marked in gray below). Many of these differences may have occurred because of the context of the questions asked - faculty were asked how often *students* in their sections did these activities collectively; while students were asked how often they individually did these activities.

Faculty were more likely to say that their students did the following often or very often: Asked questions in class, came to class unprepared, discussed grades with them, discussed ideas from class outside of class, received prompt feedback from them, and skipped class. More than half of faculty respondents said they didn't know if students had serious conversations with students of a different ethnicity, religious beliefs, political opinions, etc.

Students were more likely to say that they often or very often did the following: prepared two or more drafts, wrote a paper integrating ideas, used the Internet for schoolwork, worked harder than they thought they could, and discussed ideas from class with family and friends.

Average Percentages - by item	0	1	2	3	4			
	Don't Know	Never	Sometimes	Often	Very Often	Total	Average	Notes
a Ask questions in class								
Faculty	0%	0%	17%	37%	46%	100%	3.29	There were significant differences between the responses of faculty
Students		1%	27%	33%	39%	100%	3.09	(83%) reporting this happened often or very often and students (72%).
b Make a class presentation								
Faculty	0%	33%	43%	14%	10%	100%	2.00	Student respondents (26%) were slightly more likely to say that
Students		26%	48%	19%	7%	100%	2.06	they did this often or very often than faculty respondents did (24%).
c Prepare two or more drafts of a paper								
Faculty	8%	54%	22%	10%	6%	100%	1.52	Student respondents (54%) were much more likely to report doing
Students		18%	28%	32%	22%	100%	2.58	this often or very often than faculty members thought students did (16%).
d Work on a paper integrating ideas								
Faculty	2%	38%	30%	17%	13%	100%	2.02	Faculty (38%) were more likely to say students "never" did this;
Students		6%	26%	44%	24%	100%	2.86	students were more likely to say they did this often or very often (68%).
e Come to class without completing assignments								
Faculty	5%	6%	54%	30%	5%	100%	2.24	Students (30%) were more likely to say they never did this; faculty
Students		30%	57%	10%	3%	100%	1.87	were more likely to say students did this often or very often (35%).
f Work with other students during class								
Faculty	0%	6%	48%	25%	21%	100%	2.60	More than half of students (57%) and slightly less than half of
Students		6%	37%	37%	20%	100%	2.71	faculty (46%) said that students did this often or very often.
g Work with other students outside class								
Faculty	13%	2%	41%	30%	14%	100%	2.32	Responses for faculty and students were similar. Thirteen percent
Students		22%	40%	24%	14%	100%	2.29	of faculty said they didn't know if their students did this.
h Tutor or teach other students								
Faculty	32%	11%	34%	16%	6%	100%	1.53	Faculty (22%) seemed to be more likely to believe that their
Students		64%	25%	7%	4%	100%	1.51	students (11%) did this often or very often. Sixty-four percent of students reported never doing this.
i Participate in a community-based project								
Faculty	19%	53%	8%	10%	1%	100%	1.37	Proportions for this measure were roughly equal; 80% of students
Students		80%	16%	3%	1%	100%	1.26	said they never did this, while 72% of faculty said never or that they didn't know.
j Use the Internet to work on an assignment								
Faculty	13%	13%	24%	24%	27%	100%	2.40	Students were more likely to report doing this often or very often
Students		6%	18%	27%	48%	100%	3.17	(75%).
k Use email to communicate with you								
Faculty	0%	0%	32%	37%	31%	100%	2.98	The percentage thinking students did this often or very often was
Students		7%	28%	35%	29%	100%	2.87	similar for both; however 7% of students said they never did this

Average Percentages - by item	0	1	2	3	4			
	Don't Know	Never	Sometimes	Often	Very Often	Total	Average	Notes
								while no faculty thought this was the case.
l Discuss grades/assignments with you								
Faculty	0%	0%	29%	43%	29%	100%	3.00	Faculty (72%) were more likely to report that students did this often
Students		7%	43%	31%	19%	100%	2.63	or very often than students were (50%).
m Talk about career plans with you								
Faculty	0%	5%	50%	27%	18%	100%	2.58	Students were more likely to report that this never happened (16%
Students		16%	43%	25%	16%	100%	2.41	versus 5%).
n Discussed ideas with you outside of class								
Faculty	0%	16%	54%	24%	6%	100%	2.21	Students were more likely to report that this never happened (39%
Students		39%	41%	15%	5%	100%	1.86	versus 16%).
o Receive prompt feedback from you								
Faculty	0%	0%	11%	33%	56%	100%	3.44	This was another area where faculty and students disagreed; 89%
Students		4%	32%	44%	20%	100%	2.79	of faculty reported this happening often or very often, while only
								64% of students said this.
p Work harder than they thought you could								
Faculty	16%	0%	35%	35%	14%	100%	2.32	More students said that they did this often or very often (57%
Students		8%	35%	37%	20%	100%	2.70	versus 49%).
q Work with you other than coursework								
Faculty	2%	44%	44%	6%	3%	100%	1.65	Students (67%) were more likely than faculty (44%) to say this
Students		67%	23%	8%	1%	100%	1.43	never happened.
r Discuss ideas from classes outside class								
Faculty	38%	2%	38%	16%	6%	100%	1.51	Thirty-eight percent of faculty said they didn't know if this happened;
Students		8%	34%	35%	22%	100%	2.72	this explains why 57% of students said it happened often or very often but only 22% of faculty said this.
s Have conversations with students of different race								·
Faculty	51%	5%	24%	16%	5%	100%	1.19	Fifty-one percent of faculty said they didn't know if this happened;
Students		23%	35%	25%	17%	100%	2.36	42% of students said this happened often or very often.
t Have conversations with students of different religion,etc.								
Faculty	56%	3%	22%	14%	5%	100%	1.10	Fifty-six percent of faculty said they didn't know if this happened;
Students		18%	34%	27%	20%	100%	2.50	81% of students said they did this at least sometimes.
u Skip class								
Faculty	3%	8%	74%	15%	0%	100%	2.00	Fifty percent of students said they never did this; however only 8%
Students		50%	45%	4%	1%	100%	1.56	of faculty said their students (collectively) never did this.

Question 5 Comparison: Faculty: During the current school year, how much does the coursework in your selected course section emphasize the following mental activities? Students: During the current school year, how much has your coursework at this college emphasized the following mental activities?

Summary

On most of the mental activities listed, there were not significant differences between the responses of faculty and their students.

Knowledge (memorization) is the lowest skill on Bloom's taxonomy. While only 60% of faculty said this was emphasized quite a bit or very much in their course, 72% of students said it was.

Application is the next skill mentioned on Bloom's taxonomy. Both 64% of faculty and 64% of students said this was emphasized in their course.

Analysis is next - 78% of faculty and 72% of students said this was emphasized quite a bit or very much.

Synthesis follows - faculty (75%) were much more likely than students (65%) to say this was emphasized quite a bit or very much.

The highest skill on the taxonomy is evaluation (making judgments). Again faculty (66%) were more likely to say this happened quite a bit or very much than students (53%). This difference was not statistically significant. Some of the differences seen here may be because students aren't as aware of the operational definitions of the terms used. For instance, students may be unsure what the term "synthesis" means in terms of coursework.

Question 9 Comparison: Faculty and Students: How much does this college emphasize each of the following?

2012 Summary

Faculty and students agreed that Great Falls College provided students the support they needed to succeed, provided students financial support and emphasized using computers in academic work. There was also agreement that Great Falls College didn't emphasize providing students support to thrive socially nearly as much.

There were three areas of disconnect: encouraging students to spend time studying (67% faculty versus 84% students), encouraging contact among students of different backgrounds (44% faculty versus 55% students), and helping students cope with non-academic responsibilities. Forty-seven percent of faculty respondents felt that helping students cope with non-academic responsibilities was emphasized quite a bit or very much; however only 27% of students found this same level of emphasis.

These differences may simply be a matter of perspective. Perhaps students don't share their issues with non-academic responsibilities. It may be useful for faculty and staff to be aware of these differences in perception of emphasis.

	Average Percentages - by item	1	2	3	4			
		Very little	Some	Quite a bit	Very much	Total	Average	Notes
а	Encouraging students to spend time studying

Question 10 Comparison: Faculty: About how many hours do you think full and part-time students at this college spend in a typical 7-day week doing each of the following? Students: About how many hours do you spend in a typical 7-day week doing each of the following?

2012 Summary

There were significant differences in the amounts of time students reported doing these activities and the amount of time faculty thought students spent. In particular, faculty thought students spent more time working and caring for dependents than students actually reported. In fact, 43% of students reported spending no time caring for dependents while no faculty thought students spent no time doing this. Thirty percent of students reported spending no time working, while no faculty thought students spent no time doing this.

Students reported spending more time preparing for class (over half [51%] said they spent 11 hours or more) than faculty thought they did (only 32% thought students spent more than 11 hours).

The differences seen here may have to do with the fact that faculty answered these questions for their "average" student, while students answered them individually.

	Average Percentages - by item	0	1	2	3	4	5			
		None	1-5 hours	6-10 hours	11-20 hours	21-30 hours	More than 30 hours	Total	Average	Notes

Question 12 Comparison: Faculty: To what extend do students' experiences in your selected course section contribute to their knowledge, skills, and personal development in the following areas? Students: How much has your experience at this college contributed to your knowledge, skills, and personal development in the following areas?

Summary

On a number of the abilities listed, there were differences between the responses of faculty and their students (those activities that had significant differences are marked in gray below). Many of these differences may have occurred because of the context of the questions asked - faculty were asked to what extent their individual course contributed to an ability; while students were asked to what extent their overall experience at MSU-Great Falls contributed to an ability.

Faculty were more likely to say that their course contributed to students acquiring job skills.

Students were much more likely than faculty to say that their experience at MSU-Great Falls contributed to their acquiring a broad general education, their ability to wrtie clearly and effectively, their ability to solve numerical problems, their understanding of people of other backgrounds, and gaining information about career opportunities.

Question 13-1 Comparison: Faculty: How often do you refer students to the following services? Students: Indicate how often you use the following services.

2012 Summary

Faculty were asked how often they referred students (collectively) to these services; students were ask how often they used these services (individually). Therefore there are some wide differences in the percentages and averages seen below. No statistical testing was done - but we can compare the ranking of these services by referrals of faculty and use by students. The "Rank" column below shows where each of the services ranked for each group.

Rankings were similar for most services for each group. There were two major differences: disability services was number three on the list of referrals by faculty and number 10 for students, while computer labs were number one for students, but tied for fifth for faculty. Faculty were asked about students in the collective; collectively faculty probably refer a number of students each term to disability services. Students were asked about their individual frequency of use; probably only a small percentage of students qualify for disability services. Computer labs are used often by students, but faculty probably don't feel they need to refer students to those services.

Question 13-3 Comparison: Faculty: How important do you believe the services are to students at this college? Students: Indicate how important the services are to you.

2012 Summary

Faculty were asked how important these services were to students (collectively); students were ask how important these services were to them (individually). Therefore there are significant differences in the percentages and averages seen below. No statistical testing was done - but we can compare the ranking of these services by referrals of faculty and use by students. The "Rank" column below shows where each of the services ranked for each group.

One distinction was the ranking for computer labs - students ranked this as the third most important service, while faculty ranked it lower in terms of importance. On the other hand, faculty ranked skill labs as more important than students did.

Question 14 Comparison: Faculty: How likely is it that the following issues would cause students to withdraw from class or from this college? Students: How likely is it that the following issues would cause you to withdraw from class or from this college?

Summary

Overall students felt it was much less likely that any of these issues would cause them to withdraw, with the one exception of transferring to a college or university. For that issue, faculty and students gave somewhat comparable answers. Because of these wide differences, no statistical testing was done - but we can compare the ranking of these isseus faculty and students. The "Rank" column below shows where each of the issues ranked for each group. While faculty said that students were most likely to withdraw because of personal reasons or because they were academically unprepared, students felt that academic unpreparedness was the least likely reason given. This is a major disconnect; either faculty are underestimating students at Great Falls College or students are overestimating their abilities.

	Average Percentages - by item	1 Not Likely	2 Somewhat Likely	3 Likely	4 Very Likely	Total	Average	Rank	Notes
а	Working full-time	•	·	•			ŭ		
	Faculty	2%	16%	39%	43%	100%	3.23	4	Both ranked it near the middle of the issues given.
	Students	41%	20%	18%	21%	100%	2.18	3	•
b	Caring for dependents								
	Faculty	2%	15%	41%	43%	100%	3.25	3	Both ranked this similarly.
	Students	46%	23%	16%	15%	100%	2.01	4	
С	Academically unprepared								
	Faculty	0%	11%	41%	48%	100%	3.36	2	There were wide differences here - 89% of faculty said this was a
	Students	56%	26%	12%	6%	100%	1.68	5	likely or very likely reason, but only 18% of students said this.
d	Lack of finances								
	Faculty	5%	25%	41%	30%	100%	2.95	5	This was the top reason for students, but one of the bottom two for
	Students	26%	20%	23%	32%	100%	2.61	1	faculty.
е	Transfer to a 4-year college or university								
	Faculty	23%	43%	25%	10%	100%	2.21	6	This was the lowest ranked reason for faculty, but the second
	Students	40%	17%	21%	22%	100%	2.26	2	highest for students.
f	Personal issues								
	Faculty	0%	5%	41%	54%	100%	3.49	1	This option was only given on the CCFSSE survey. Faculty said
	Students -								this was the most likely reason a student would withdraw.
